# The EF advantage

Discover the best in educational travel

# Why travel with EF Educational Tours?

Well, that's easy. Our team works hard to design tours that offer once-in-a-lifetime experiences for your students. Participation in EF-exclusive, hands-on activities, connection with locals, and inspiring speakers are only part of what makes every EF educational tour stand out.

# Safety is our top priority

We've been in business for more than 50 years, and when it comes to travel, you don't get that far without being committed to safety. We always go above and beyond what any other tour provider can offer.

With over 46,500 EF personnel around the globe, we have a local presence in nearly every location we travel to—so we're there to support you whenever you need us.

How we make safety our top priority:

- **\$50 million General Liability Policy:** All Group Leaders and schools are automatically insured when they travel with EF.
- **Peace of Mind Program:** Change your travel dates or itineraries up to 45 days before departure.
- **Operations Safety & Incident Response Team:** This team is available 24/7 and dedicated to supporting our Group Leaders, travellers, and Tour Directors on the road.
- **EF Safety First program:** This program provides the safest possible tour experience for our customers and takes operational preventative measures to help ensure the safety and welfare of our travellers on all of our tours.

To learn more about our commitment to safety, visit [eftours.ca/help-centre/safety](https://eftours.ca/help-centre/safety)

## Exclusive partnerships and programming

People throw the phrase “the best” around a lot. But our educational partners have the awards, social impact, and experience to really stand up to it.

The unique, innovative experiences we create for our travellers are possible because of their reach and expertise. We also work with many of our partners to provide exclusive resources like lesson plans and curriculum connections, curated specifically for EF itineraries.

EF’s official partners include:

- The Juno Beach Centre
- Historica Canada
- ME to WE
- The Royal Canadian Geographical Society
- The Duke of Edinburgh’s International Award – Canada
- Award-winning and distinguished educators

# The positive impact of travel

Exploring someplace new rewires your brain in subtle yet substantial ways. There's magic in the kind of learning that happens where you least expect it. And we know there's as much to discover in trying an unfamiliar food as there is in navigating a museum or historical site. Here at EF, our itineraries are more than just places to go and things to see.

**We're dedicated to building programs that challenge assumptions, spark connections, and inspire empathy in the students who travel with us.**

EF's unique approach to education ensures that students who travel with us will:

- Become stronger critical thinkers and problem solvers
- Understand new people, places, and cultures
- Grow more confident and independent
- Expand their knowledge of the world around them
- Return from their tour with valuable leadership skills

# An education company first and foremost

We believe in the educational power of experiencing different places and cultures. With a staff that includes former educators and an expert programming team, we understand the trends in the landscape of education. We're always working to ensure our tours meet ever-changing curriculum requirements and the needs of Canadian teachers.

Our portfolio of tours covers a range of subjects and interests, including STEM Tours, which encourage experiential learning and directly reflect the theories practiced in the classroom. We've also created Service Learning Tours, tours that explore Indigenous cultures and perspectives, Historic Event Tours, and Language Immersion Tours—each providing students with a unique, specialized look at both their education and the world around them.
